OVERVIEW

SCC is providing fabrication services of the highest caliber for more than three decades, working with clients to effectively meet their challenges by offering quality workmanship in their construction works.

SCC Industries is one of the leading contractors dealing with designing and construction of cone roof and floating roof tanks, pressure vessels, Horton spheres, S.S. Cyclones, Self-Supporting chimneys, manufacture and supply of heavy structural, silo's, elevators and conveyers, Laying of C.S. and S.S. pipelines and erection and alignment of boilers, equipment and machinery for all type of industries. With an experience of more than three decades **SCC INDUSTRIES** has emerged as one of the established entrepreneurs with a promise and commitment to serve the growing industrial belts of Saudi Arabia in the manufacturing, maintenance, construction and erection works in Government, Public & private sectors.

SCC Industries houses a team of qualified and experienced engineers, supervisors, highly skilled technicians and labors capable of handling projects of all types of fabrication works under stringent quality control across Saudi Arabia with a support of sound Infrastructure of equipment's in a fully equipped workshop comprising of fabrication & machine shop, conveniently located at Riyadh.

Our system of strict quality control checks has put us in the list of approved class1 fabricators and has won us the support of numerous discerning users in a wide spectrum of heavy industries ranging from oil mills to petrochemicals.

SCC INDUSTRIES by virtue of their relentless assiduous work are committed to offer our clients quality workmanship in construction work.

“From local businesses to industry leaders, SCC industries has been serving varied companies and industries That target business needs specific to each.

Vision Statement

The vision of the company is to create and provide the best opportunities every day for our customers to provide products with high technical specifications while preserving the environment and the validity of the product for use in the food and pharmaceutical industries through good manufacturing practices (GMP) through the provision of products and solutions in handling and handling liquids.

Mission Statement

Our mission is to dedicate the company's efforts to improve the performance of the company's customers repeatedly and to become more productive and competitive by providing high quality products and providing appropriate solutions using modern technology.

Strategic Goals

- 1- Customer focused;
- 2- Evaluation of suppliers and service providers;
- 3- Transformation to a leading company at the local and Gulf levels in the production of stainless-steel products;
- 4- Working according to the highest levels of international quality;
- 5- Dealing with risks and opportunities related to the company's context and objectives;
- 6- Continuing to satisfy the needs of the renewable customers, to provide distinguished products, and to reach a prestigious position locally and regionally;
- 7- Continuous development through keeping pace with the transfer of modern technology either individually or through partnerships with others.

Quality Policy

It Is the Policy of Stainless Steel Corners Trading Company to maintained its reputation as one of the leading companies in the production and manufacture of Stainless steel products, welding and cutting work according to the demand and international specifications and required in Saudi Arabia by following the latest production methods and technology in accordance with the highest levels of quality, safety and production possible and at the right prices to satisfy customers and their expectations.

As part of our strategic direction outlined in the vision and message of Stainless Steel Corners Trading Company, Top management confirms its obligation and responsibility to implement and maintain the quality management system according to the requirements of ISO 9001: 2015 by:

- ★ Obligation to applying context of the company;
- ★ Understand customer needs and expectations and meet their demands;
- ★ Obligation to product quality and safety to satisfy customers Through the production of safe products and conformity with laws and regulations, health requirements and government, as well as specifications and requirements of customers and high quality;
- ★ Obligation to the application of other laws and legislations regarding the preservation of the environment, safety and occupational health of employees, visitors and contractors;
 - Focus on the selection and evaluation of suppliers of materials as well as service providers and their obligation to the safety and quality of the materials supplied and the services provided;
- ★ Obligation to continuous improvement of quality management system by identifying objectives and programs for improvement and development;
- ★ Work on the planning and evaluation of our operations through thinking based on the identification and assessment of risks;
- ★ Distribution and application of quality policy at all levels of the company as well as interested parties, and review quality policy and objectives periodically at each top management review;
- ★ Maintain flexibility to integrate the requirements of all departments in accordance with the standards;
- ★ Make sure that the staff of Stainless-Steel Corners Trading Company have the competence and training to be more able to serve our customers;
- ★ Obligation to implement, maintain and update ISO 9001: 2015 quality management system

CIP (Clean-in-Place)

The operating principle of the full auto CIP cleaning system means that the tank body, pipelines, pumps and all valves and also the whole processing line are cleaned on line no need to disconnect the pipes or the equipments, all cleanings are done at the closed circuit.

Indoor & outdoor storage use.

good heat / cool preservation performance.

Polished, suitable for GMP standard

PIPES AND TUBES

Carbon Steel & Alloy Pipes (Seamless)

ASTM: A53 Gr.B, A106 Gr.B, API 5L Gr.B, X42, X52 & A333-6

Thickness: 20 – 30 – 40 – 60 – 80 – 120 – XXS – STD & XS

Finish: Black or Galvanized

Size: 1/2" to 24" diameter

Length: 6 meter – 12 meter – DRL – SRL

Carbon Steel Pipe (ERW)

ASTM: A53-A, A53-B & API 5L Gr.B

Thickness: STD – XS – 40 (medium & light)

Type: Welded

Size: 1/2" to 24" diameter

Finish: Black or Galvanized (GPE, GTC)

Length: 6 meter-12 meter – DRL – SRL

Carbon Steel Pipe (Submerged Arc Welded)

ASTM: API 5L Gr.B, X52 & X60

Thickness: STD – XS – 40

Type: Straight or Spiral

Size: 18" to 80" diameter

Length: 6 meter-12 meter – DRL – SRL

Stainless Steel Pipes (Seamless)

ASTM: A312 – 304/304L, 316/316L

Size: 1/2" to 12" diameter

Thickness: 10, 40, 80, 120, XXS, XS, STD

Length: 6 meter – 12 meter – DRL – SRL

Stainless Steel Pipes Welded (ERW / EFW)

ASTM: A312 – 304/304L, 316/316L A358 – 304/304L, 316/316L

Size: 1/2" to 12" diameter

Thickness: 10 – 40 – 80 – 120 – XXS – XS – STD

Length: 6 meter-12 meter – DRL – SRL7

DUPLEX/ SUPERDUPLEX

size: 1/2" to 30"

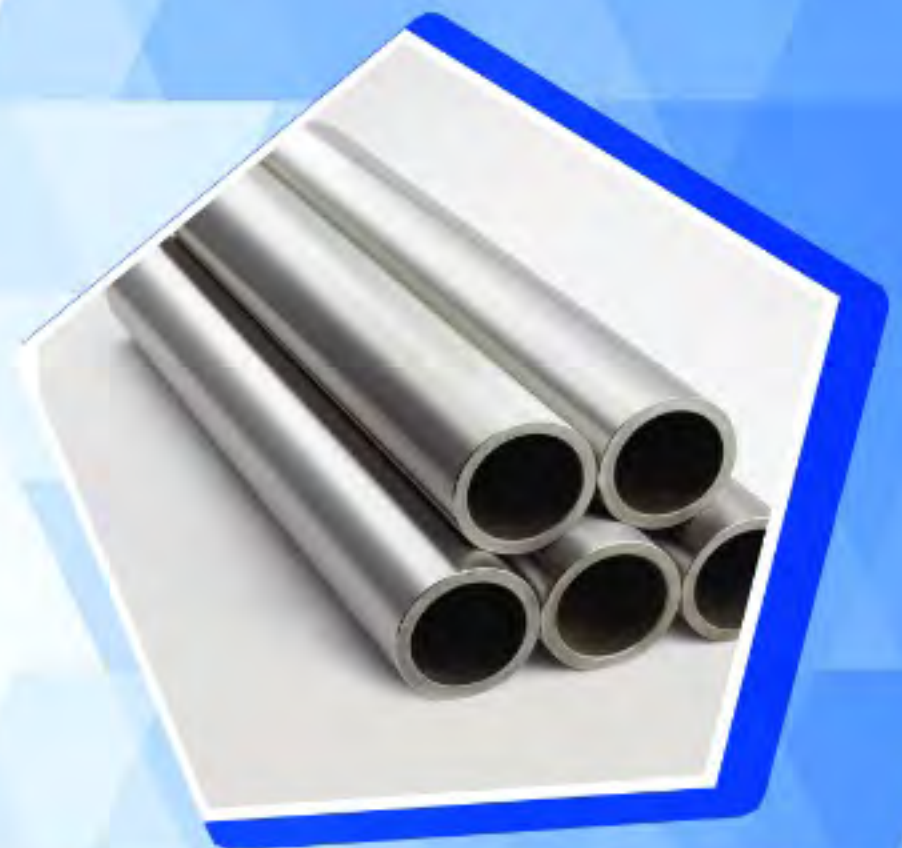

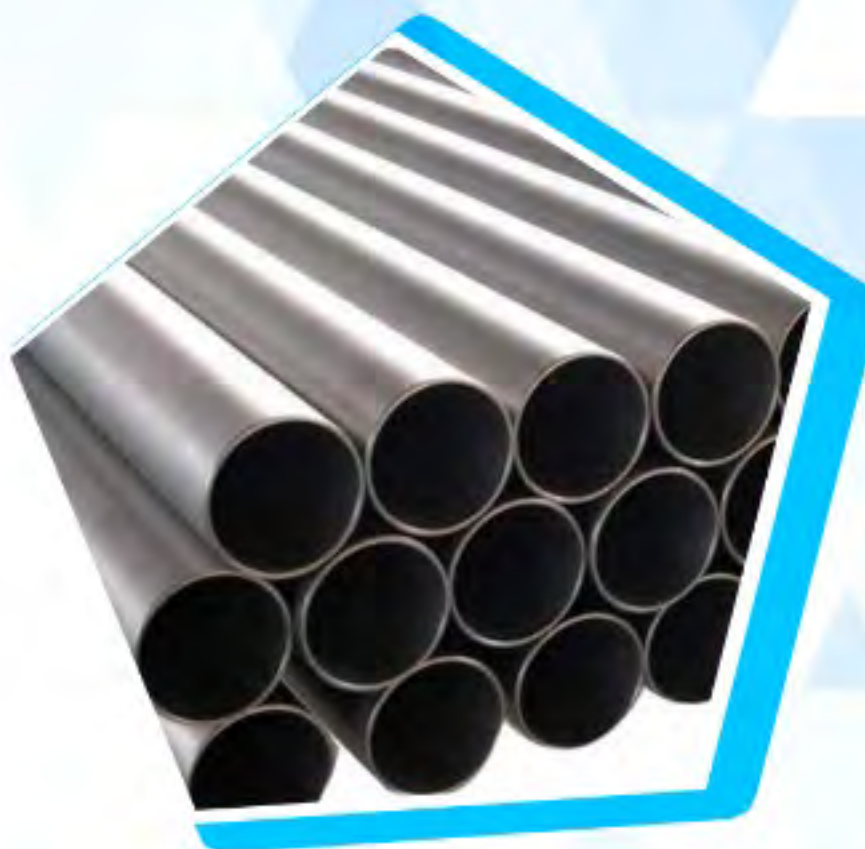

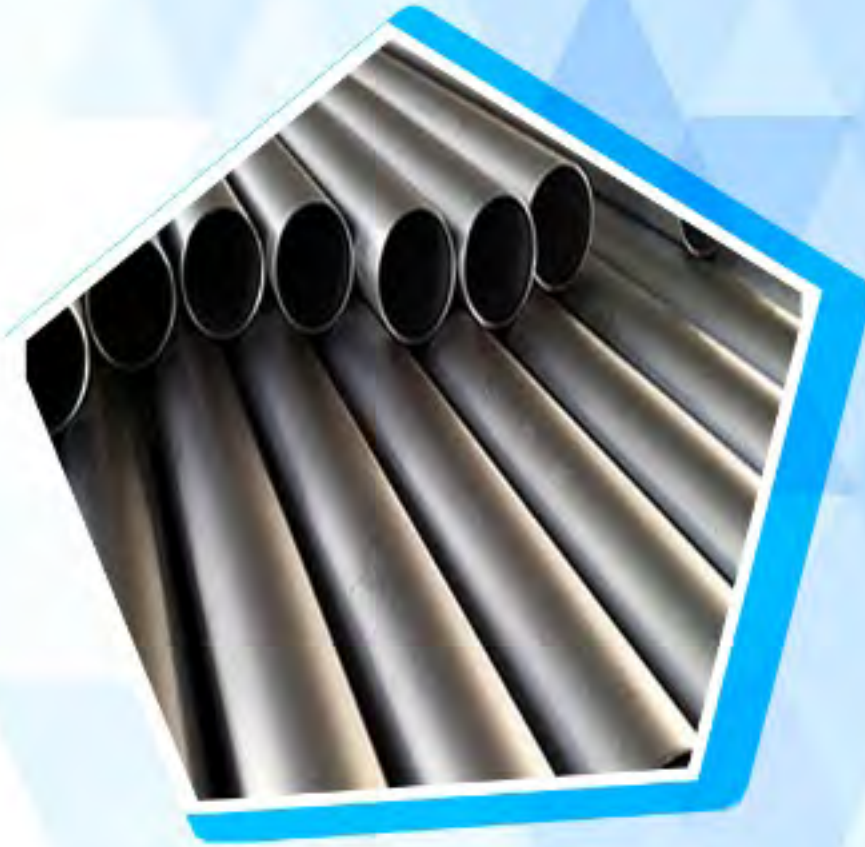

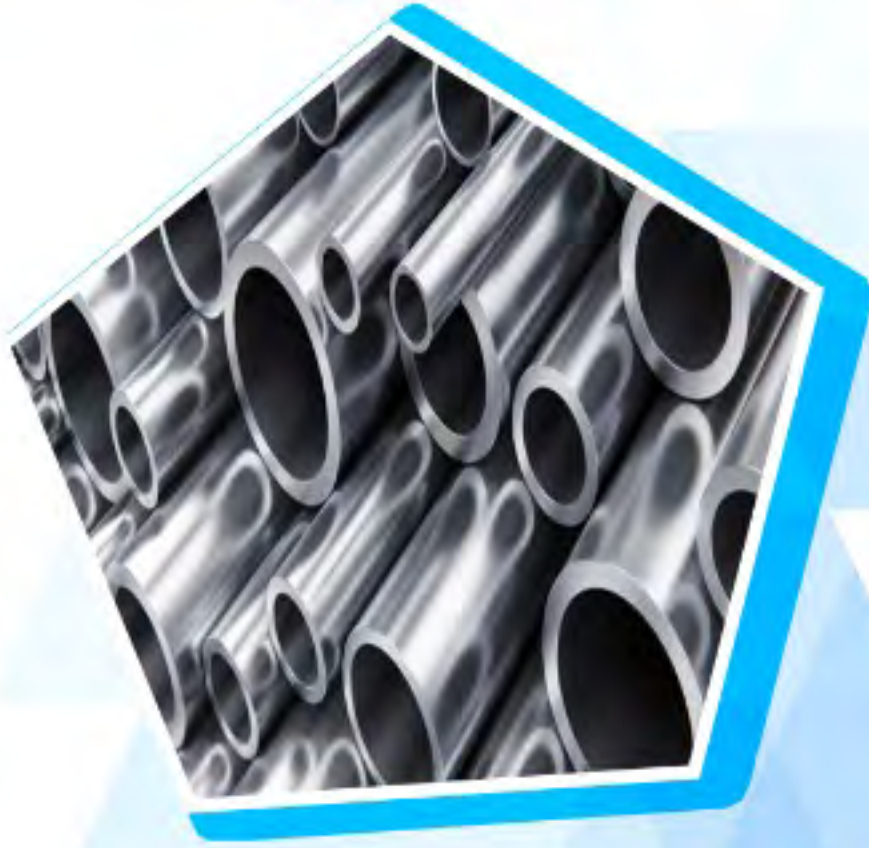

schedule: sch5 to schxxs

ASTM:A790/A190

Grades :UNS S31803/UNSS32750/UNS S32760

PIPES AND TUBES

FITTINGS

Carbon Steel Butt Weld Fittings

ASTM: A234 WPB, A234 WP (1-22), A420 WPL 3 & 6, A860 WPHY (42-70)

Type: Seamless & Welded

Size: 1/2 " to 60 "

Thickness: STD, 40 – 60 – XS -160 – XXS

Finish: Black or Galvanized

Stainless Steel Butt Weld Fittings

ASTM: A403-304/304L, 316/316L

Type: Seamless & Welded

Size: 1/2 " to 36 "

Thickness: (10S)-80S

DUPLEX/ SUPERDUPLEX

size: 1/2" to 48"

STANDARD: #150 #300 # 600 #1500

In ASA 150 and asa 300

ASTM: a182

Grades : f51, f52, f53, f55 , f57 , f59 , f60 ,f61

Forged Carbon Steel Fittings

ASTM: A105, A350LF1 to LF6

Size: 1/4 " to 6 " (NPT & SW)

Class: 3000#, 6000#, 9000#

Finish: Black or Galvanized

Forged Stainless Steel Fittings

ASTM: A182 – 304/304/L, 316/316L

Size: 1/4 " to 4 " (NPT & SW)

Class 3000#, 6000#, 9000#

FLANGES

Carbon Steel Flanges

ASTM: A105, A105N, A350LF2, A707

Type: Weld Neck, Slip-on, Socket Weld, Blind, Threaded & Lap joint

Size: 1/4" to 24" diameter , 26" to 60" (MSS SP44, API 605)

Thickness: STD, 40, XS, 80, 160, XXS

Class: 150# to 1500#

Finish: Black or Galvanized

Standard: ANSI, BS, DIN, AWA

Stainless Steel Flanges

ASTM: A182-304/304/L, 316/316L

Type: Weld Neck, Slip-on, Socket Weld, Blind, Threaded & Lap Joint

Size: 1/2" to 24"

Thickness: 10, 40, STD, XS, 80, 160, XXS

Class: 150# to 1500#

FLANGES

VALVES

Carbon Steel Valves

ASTM: A216WCB, A217WC 6, 9 & A217WC 5, 6, 9 & 12

Type: Gate, Globe, Check & Ball

Size: 2 " to 60 "

Class: 150# to 1500#

Stainless Steel Valves

ASTM: A351 CF8M, CF8, CF3M, A352-LCB & LCC

Type: Gate, Globe, Check & Ball

Size: 2 " to 60 "

Class: 150# to 1500#

Forged Carbon Steel Valves

ASTM: A105N

Type: Gate, Globe, Check, Ball

Size: 1/4 " to 2 "

Class 150# to 1500#

Forged Stainless Steel Valves

ASTM: A182-304/304L, 316/316L

Type: Gate, Globe, Check & Ball

Size: 1/4 " to 2 "

Class: 150# to 1500#

Cast Iron Valves

ASTM: A126

Type: Gate, Globe & Check

Size: 2 " to 24 "

Class: 125# to 250#
